

TIMETRAK® esSTOUCH SERIES DATA COLLECTION TERMINALS

Description

The new TimeTrak® esTouch Series offers the latest in Employee Self Service and Time and Attendance data collection benefits, through its bright, graphical touch-screen user interface. Plus, each unit is equipped with an integrated digital camera for capturing pictures, providing passive biometric validation for increased accountability. For businesses with more advanced validation requirements, the esTouch supports both RFID badge and biometric fingerprint readers. No matter your environment, the esTouch Series provides a perfect balance of performance, flexibility and accountability.
